

NESS Nitrogen Generator - NG2000

Constant nitrogen supply with the NESS nitrogen generator

Nitrogen Generator NG2000

Max. admissible pressure: 10 bar a / g

Min. / max. perm. temperature: +1 / +50 °C

Medium: Compressed air, nitrogen

Separate switch box

(LxWxH) 50 x 50 x 21 cm

Technical highlights of the NG2000

Technology:

Membrane technology for gas separation

Inlet pressure: Standard 6 bar g

Outlet pressure: Standard 5 bar g

Purity: 99.5 % nitrogen

Volume flow: approx. 33 l/min (standard)

Air number: 4,5

Reliability:

Continuous monitoring of the nitrogen purity and automatic switch-off if no nitrogen is required
